

ROTARY FAMILY HEALTH DAYS (RFHD) PROGRAMME SUMMARY

NIGERIA

October, 2022

24 October – 26 October 2022 | RFHA Country Coordinator, PDG BOLA OYEBADE

REPORT PUBLISHED: 12/15/2022

Highlights

- Launch Sites as
 - National Launch in Lagos
 - District Launch in Abuja
- 110 Health Day Sites were set up across Nigeria
- About 102,000 people visited the various sites
- Over 43,094 General pharmacies provided in total
- 37,024 HIV Test performed
- 8,885 Hepatitis B&C screening
- 35,536 Malaria screening
- 66,713 Blood pressure tests
- 2,006 Tuberculosis screening
- 6,465 Prostate screening
- 22,713 family counselling
- 13,659 Polio immunizations administered
- 15,370 Sanitary pads for girls distributed
- 24,094 Vitamin A supplements
- 26,763 Children received deworming
- 21,730 Long-Lasting mosquito nets distributed
- 3,929 Male and Female Condoms distributed

Executive Summary

The October 2022 Rotary Family Health Days was the second being held in the year 2022, the first being in June 2022. This is happening for the first time mainly as a result of the new partnership with the Bill and Melinda Gates Foundation. The Foundation can practically be said to be the much-awaited support Rotarians were awaiting. The program was held across the four Rotary International districts in Nigeria viz, Districts 9110, 9125, 9141, and 9142.

HISTORICAL BACKGROUND

Rotary Family Health Days began in Nigeria with the 2012 event which was held in Lagos State on 1st and 2nd June 2012 and in Ogun State on Saturday June 9, 2012. The 2013 event took place in Lagos State local government areas and in Ogun State at Abeokuta, Sagamu, Isara and Ijebu- Ode on May 11, 2013 and another round in Abeokuta on May 17, 2013. The RFHA board agreed to the scaling up of the programme in Nigeria in 2014 to cover the whole country. Consequently, all the then three Rotary districts in Nigeria-D9110, D9125 and D9140 held health camps in their various communities on April 24- 26, 2014. The outcome was good and showed that the decision to cover the entire country of Nigeria was a wise one. In 2014 Nigeria recorded 140,856 attendance: 90,875 in 2015 and 140,918 in 2016. Also, since 2016 Nigeria added Hepatitis B and hepatitis C screening to its services, this was further activated in the 2019 and the 2020 program. The 2020 program was able to record about 140,000 attendances while the June 2022 program had 49,891 registrants. This low figure is associated with the available fund for the program versus the number of days employed to activate the program which was two as against the regular two days.

Acceptance of the program has increased tremendously over the past eleven years due to much publicity given to it through our robust working relationship with and great work with public relations consultant, Core Prime Ad Concept and other local Public Relations organizations with increased materials and logistics support from our key program partners especially the Nigeria Federal Ministry of Health and the US Government missions under the PEPFAR program. The support from the Federal ministry of Health has been very beneficial to the RFHD program as it signifies official acceptance of RFHD as one of the important health programs in Nigeria. The Federal Ministry officially send information and directives to State Ministries of Health and the Primary HealthCare Centers all over the country to work with Rotary on the RFHD as they do during polio, malaria, and other health programs which Rotary spearheads. The US Centers for Disease Prevention and Control and the USAID give adequate information, logistics support and request their Implementing Partners to work with RFHA on its RFHD sites.

Funding for the October 2022 program came fully from The Bill and Melinda Gate Foundation. No other organization funded the program. Notwithstanding there were supports from The Federal Government of Nigeria and most State Governments where the program took place, Local governments and local NGOs that supported in kinds especially through human capital. The proof of concept and sustainability of the program has long been established. The Rotary Foundation of Rotary International regularly send members of the Cadre of Technical Advisers to audit the various yearly program. The last sent being in 2020. The audit was conducted virtually spanning a period of one week. The Auditor was able to speak with key role participants in the program and had no known reservation about the program. His report was duly submitted to the Rotary Foundation of Rotary International.

Background

Rotarians for Family Health and AIDS Prevention Inc. (RFHA)

Rotarians for Family Health & AIDS Prevention (RFHA) is a global Rotarian Action Group and mobilizing partner of Rotary International. RFHA creates the design, obtains the resources, and has overall management responsibility for Rotary-led disease prevention and treatment programmes such as the Rotary Family Health Days. RFHA's mission is to save and improve the lives of children and families who do not have access to preventative health care and education. This is done through the mobilization of Rotarians, national and global partners. RFHA's direct impact is the **strengthening of infrastructure on health care delivery systems** worldwide.

RFHA's role in the RFHD programme is to act as the lynchpin organisation to initiate the programme, obtain buy-in from partner organisations and funding sources and to co-ordinate the work with all implementing partners leading up to and over the three-day event. RFHA further provides mechanisms, tools, platforms, and training to assist the three Rotary Districts and clubs in the roll out of the RFHD's as well as developing a comprehensive Media and Communications strategy delivered through a dedicated Media team.

Impact:
Strengthening the
infrastructure on
health care
delivery systems
worldwide

Rotary Family Health Days: A Public Private Partnership

A Historical background

The Rotary Family Health Days is the signature programme of the Rotarian Action Group, Rotarians for Family Health & AIDS Prevention Inc (RFHA). It is a unique public/private partnership program that is currently in its tenth year of operation. This three-day annual program provides wholistic, comprehensive and preventive health screenings (both communicable and non-communicable) diseases by way of leveraging and inspiring a massive force of humanitarian-driven Rotarians and partners. Through this programme, tens of thousands of people are served in mostly under-privileged communities in some countries in East Africa, South Africa, West Africa and India.

The services include free life-long immunizations to children, such as polio and measles vaccines and comprehensive life-saving annual health screens, counselling, testing and referrals for HIV/AIDS, TB, diabetes, hypertension, malaria, and some cancers. They also include deworming of children, vitamin A supplementation and immunizations for polio. Other services like eye and dental examinations are included at almost all locations. Health counselling, education and referrals for follow-on care are provided as well. Distribution of insecticide treated mosquito nets, male and female condoms, hygiene packs, dental cleaning supplies and other materials are also offered to clients in areas of need and availability.

In 2018 this three-day campaign operated about 500 health camps through the efforts of over 400 Rotary Clubs and 5,000+ Rotarians, Rotaractors, and community volunteers. The sites were located across Nigeria, South Africa, Ghana, Cote d'Ivoire, Togo, Benin, and Uganda. Services were delivered to 423,795 patients. Since the inception of the Rotary Family Health Days in 2011 over 2.4 million patients have been offered over 11 million free health services.

In Nigeria the program is Rotary-led together with our valued partners which include the Nigeria Federal Ministry of Health, the four Rotary Districts in Nigeria, local NGOs, our media partners and the Measurement and Evaluation partners, Zimi Community Good Health Initiative, etc.

The October 2022 RFHD Program was fully funded by the Bill and Melinda Gates Foundation and supported by The Federal Ministry of Health, States Ministries of Health, Primary Health Centres, Local NGOs, We also had huge technical support from RFHA inc. They all provided personnel and material support.

RFHD Program Model Nigeria

Primary Partners and Funders

- Rotary Family Health and Aids Prevention (RFHA) – a Rotary International Action Group
- Bill and Melinda Gates Foundation
- Nigerian Federal Ministry of Health
- States Primary Health Centre
- Local NGOs
- Core Prime Ad Concept

Media Support Partners

- Punch newspapers
- The Guardian
- The National Television Networks
- Lagos television
- Africa Independent Television
- TV Continental
- Radio Nigeria, Bond FM, Eko FM, Paramount FM, Dugba FM, Kaduna FM, Asaba FM, Wazobia FM

Planning and Implementation of the Rotary Family Health Days

Determining the Dates

The national steering committee members selects possible dates based on the availability of the date and its convenience to all the districts. Thus, the inputs of the District Governors were necessary in the course of selecting the appropriate dates. In the past, RFHA normally reminds them of the usual month of RFHD which for about 5 years has been third quarter of the year except for the June 2022 edition, based on prevailing climate, District Governors' itinerary and other Rotary programmes. The Federal and State Ministries of Health gives us a free hand to pick a date but give long information to facilitate strong participation of government agencies in the programme.

Selecting the Sites

As many clubs' desires to be involved, they find avenues to involve the people in the community and new communities they have not explored in the past. The Rotary Clubs are the local people that deals directly with the people. They conduct Needs Assessments of their geographical areas. Reports are collated and discussed by all the committees set up and agreement is reached on how many sites will operate in the exact locations. Factors considered include medical gaps, needs, performance in previous years within that location, community assets, level of Rotarian involvement. The local government health departments, State ministries of Health, CDC and the USAID also provide lists of locations which service must be taken to and the areas each of them works. The locations are finalized with our partners as they offer valuable logistics and personnel support. As a result of the paucity of fund only sixty sites were approved for activation this year.

TABLE INSTRUCTIONS: Update the table and delete/modify any unnecessary rows/columns

TABLE OF RFHD SITES

Criteria identified for the site selection included the following:

- ✓ Rotary footprint
- ✓ Evidenced based areas with a high burden of disease in an urban and rural context
- ✓ Under-serviced areas
- ✓ Resources available
- ✓ Key populations as identified in conjunction with the Ministries of Health
- ✓ Both formal and informal areas
- ✓ Areas with basic infrastructure.
- ✓ Alignment with national objectives

Region/ State/ Province	Rotary District	No. of Identified Sites	No. of Actual Sites
Nigeria	4	120	110

Training the Teams

The Central Planning committee planned six training sessions which were held across the country for key participants including, Rotarians, Rotaractors, health workers and other volunteers. The syllabuses dealt with general health issues, data collection, testing/screening techniques, correct use of treated nets and sanitary towels, general hygiene, what is expected of volunteers at the site itself, what clubs must provide to augment what the Central Planning Committee is providing, methods of public image and awareness, health and safety of workers and clients, confidentiality in results, etc. Facilitators included Rotarians, both government and private medical experts, our consulting staff and RFHA committee members.

The best use of the designed forms for data capturing was extensively discussed.

Engaging with Primary Partners and Funders

1. The Federal and States Ministries of Health were intimated of the programme early enough to get them to continue their collaboration. They were requested to mobilize the community citizens to come out for the event at the various sites, permit Rotary the use of government health facilities at sites for the tests, donate consumables like condoms, test kits and deploy some nursing and technical staff for the program.
2. The RFHA National and district committees constantly work with all Rotary Clubs, Rotaractors, the Family of Rotary and Rotary Community Corps giving information, explaining the programme and mobilizing them through visits, workshops and training
3. Our media consultants prepare a viable media campaign
4. Meetings were held with major programme partners who were requested to transport the HTC services of their NGO partners to Rotary and provide other relevant support.
5. The Central Planning Committee has engaged the services of an M&E Consultant, ZIMI Community Good Health Initiative. As a cooperating partner they support with their wealth of professionalism and the various committees worked with the organization to achieve our goals
6. In supporting for awareness and bigger publicity, Radio and Television jingles, Fliers, posters and various communication materials were supplied by various government and primary health centers.

Media Strategy and Plan

We had a very robust media plan in collaboration with our media partner, Core Prime Ad-Concept. Our media partner organized a nationwide coverage of the programme from various sites and helped with two media interactions in Lagos State for the national launch programme. The National launch event took place in Lagos and had in attendance representatives of the minister of health, Rotary and community leaders and our key partners. The event was covered by the National Television station and International Local Televisions like Africa Independent Television, TVC and the Channels TV, national newspapers and radio stations. There were Television interviews and Radio talk sessions at various states of the federation during the activation. Other publicity campaigns includes:

- Radio jingles in colloquia English and three major local languages, radio announcements and interviews
- Pre and post event press interviews and newsreels
- Awareness campaigns in town and cities at community gatherings, markets, schools and worship centers
- Social media campaign like the Facebook and WhatsApp platforms
- Distribution of flyers, posters and banners
- Notifications and announcements in Rotary bulletins and speaking at Rotary events like Clubs President Installation, Clubs events etc.

Monitoring and Evaluation

The Overall Summary

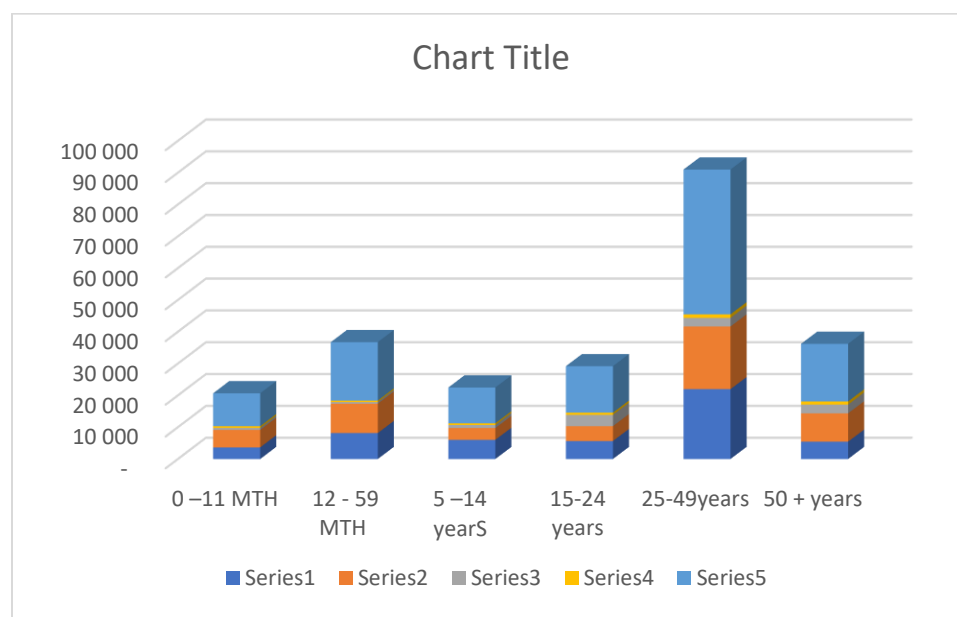

Relevant data were collected on sites by volunteers, especially health workers from our NGO partners, Rotarians and Rotaractors. The records are being analyzed for use during the 90-day Impact Study/Exit exercise which will be conducted in January 2023. The exercise is planned to be conducted by our M&E consultant, ZIMI Community Good Health Initiative with support of the RFHA M & E Team. It will cover areas in all the Rotary Districts. When the report is received, it would be shared with all parties.

Hepatitis B Vaccination	500	435	0	0	935

Rotary Add-on Services Provided

Intervention at two Internally Displaced People's Camps	
Intervention at two prisons	
General body analysis/checks	12,000
Nutritional education	11,348
Distribution of "mama kits" to pregnant women	
Eye Tests	17,439
Reading glasses	4,890
Toothpaste	1,200
Weight check	45,009

Service Referrals Provided

HIV Test	19
Hepatitis B	25
Hepatitis C	0
Blood Glucose	86
Eye Screening	137
Dental Care	78
Breast Cancer Screening	0
Cervical Cancer Screening	0
Prostate Cancer Screening	12
Malaria Tests	98
Blood Pressure Tests	1,072

Challenges and Recommendations

RFHA Nigeria requested from certain NGOs. The NGO partners came and were very active in providing counselling, testing, screening, and supply of materials to various sites.

- The Federal Ministry of Health supported the programme with supplies of thousands of male and female condoms, malaria Rapid Diagnostic Testing kits, IEC materials and some insecticide treated mosquito nets. It also provided facilities/ materials for polio immunization, HIV testing and Hepatitis screening.
- Most of the States ministry of Health also gave logistics and personnel support through their Primary Health Care centers
- The Society for Family Health gave support towards malaria screening.
- The Planned Parenthood Federation of Nigeria performed the screening for cancers
- We received media support from RFHA Inc. This helped in no small measure to enhance our social media presence. The tool employed that is Givefinder was of great support. We hope to receive more of this support in subsequent programs.
- For Monitoring and Evaluation, the support of RFHA Inc should be mentioned. Team supported in the design of training tools and data capture.
- The All Rotary International District Governors gave the RFHD generous support and ample opportunities to speak at their district events, seminars, and major programmes.
- As a result of the program we have received some requests by members of the communities to volunteer in the program and or enquiries on how to join Rotary. This is good news to Rotary, and they are being followed up.

Challenges

- Funding did not arrive early for the program. This slightly put all key role players on edge but for our goodwill, it was managed appropriately.
- Accessing some rural areas still poses challenges, coupled with the current insecurity at such places. This highly affected our performance in such areas. It also strongly affected our collation of data and reports.
- The Nigerian erratic electric power supply is still a major challenge as this greatly affects internet operation in rural areas and convenience of partners.
- The program ran for only three days, but service providers usually get overwhelmed during the last day of event and the crowd usually builds up then.

Conclusion

Regardless of the pockets of challenges encountered, the October 2022 program was a success. The Central Planning committee members were eventually satisfied that the Rotary Family Health Days had again been restored in the communities in. It turned out to have attracted some awareness. As usual, the program turned out to be a great experience both for Rotarians and the public we serve. Not minding the time and other resources put into it, the team was determined to make it an excellent program that it turned out to be.

Effectively,

- We achieved most of the goals of the program.
- Some clients were able to get referrals for medical follow-on, treatments, and care.
- Awareness of the program has been generated more than previously and more access has been made because of this year's program
- Clients at various communities are in dire need of our services as it is helping them in knowing their health status which in turn has reduced the health anxieties and the cost of keeping healthy and encouraged lifestyle changes
- Rotary awareness in some communities was increased and in some an affirmation of Rotary's good deeds in the community.
- Participating Rotarians felt fulfilled to be part of the program
- As a result of the program some members of some communities are now attending Rotary meetings with a view to becoming members.

Recommendations

Following the demand by the community members we would like to recommend that:

1. The next program be approved for the first week of February 2023
2. The Funding be released in December to enable us to have clear one month to plan and get prepared for the February edition.
3. The funding be increased by about 20% to cushion the current inflationary trend in the country which has affected all line items of our medical supplies and cost of administration.

Appreciation

We wish to appreciate specially the effort of Senior Programs' Officer at Bill and Melinda Gates Foundation (Andrea Thompson) for her support and believe in our activities. We also recognize the astuteness of The RFHA CEO, Susan Paget and her leadership style of coordination. All participants and recipients in Nigerians are very grateful to the RFHA Inc. Board for giving us the opportunity to serve the various people in our communities through the Rotary Family Health Days Program.
